BIGGER DREAMS ► BETTER LIVES ► BRIGHTER FUTURES

## Quality Checking

## User-Led Quality Checks

Registered Charity Number 1171559

# User Led Quality Checks

Led by disabled people,  
for disabled people.

- **Experts by Experience lead the Quality Check**
- **We give people facing disabling barriers a voice**
- **We identify things that could be better and support providers to improve**

**Where do we do Quality Checks? Residential homes, hospitals, supported living, domiciliary care.**

# What happens on a Quality Check:

---

- Meet people living with a disability, autism or mental ill health
- Find out what is good about their care and support
- Think about if they can have better support
- Ask staff about the people they support
- Talk to the Manager
- Tell the Provider things they are doing well
- Tell everyone what they could do better
- Sometimes we do a Follow Up Visit

# How we have helped

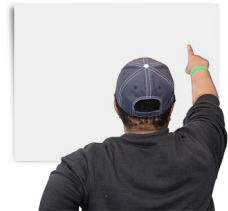

---

**A person had their Annual Health Check booked after speaking to us**

**An individual set their own goals and chose which ones to do each day**

**A home helped someone buy a fish tank for their bedroom which was calming**

**Staff were calling people 'grumpy', the Manager spoke to the staff and they stopped**

---
